Industry

Onze KC-Transportband onderscheidt zich van alle andere transportbanden in de markt op het gebied van degelijkheid en betrouwbaarheid. Deze transportband is met uitstekend geschikt voor middelzware industrie met een soortelijk gewicht tot 1500 kg/m³.

Deze transportband is de sterkste transportband in ons assortiment en is perfect voor klanten die op zoek zijn naar het sterkste product.

Custom built construction

Based on many years of experience within the conveyor belt industry, we have designed this product out of an extremely solid tube construction. The construction strength allows a span up to 10 meters between the support points.

All our projects are Customer-Specifically engineered. This ensures that each conveyor fulfills your wishes and is suitable for your processes.

Additional options

Depending on your needs and area of application, various additional options can be chosen.

Examples are:

- Special scrapers
- Supports
- Loading bunkers
- Hoppers
- Rain caps
- Star screens
